

Adding COVID-19 to the Dragon Medical vocabulary using Nuance Management Center

The following steps will add “COVID” and/or “COVID-19” to multiple Dragon Medical One and/or Dragon Medical Network Edition users via Nuance Management Center (NMC). If you do not have access to NMC or would like to add “COVID-19” an individual profile vocabulary, please refer to the instructions below.

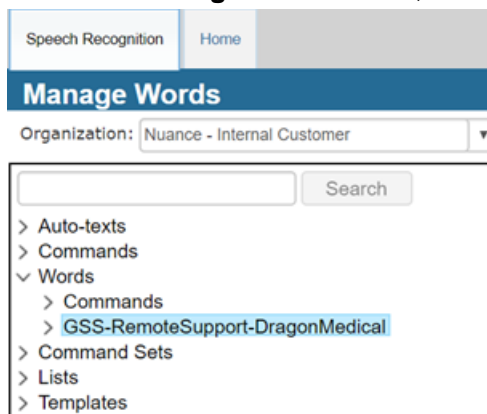

- [Instructions for adding COVID-19 to an individual profile vocabulary in Dragon Medical One](#)
- [Instructions for adding COVID-19 to an individual profile vocabulary in Dragon Medical Network Edition](#)

Instructions

1. In the Nuance Management Center, under **Speech recognition**, click **Manage**.

2. Under the **Manage Words** menu, select the group to receive the new vocabulary word.

3. Click **Add**.

4. Enter "COVID" or "COVID-19" in the **Written Form** field. Enter "coevide" or "coevide nineteen" in the the **Spoken Form** field and click **Save**.

A screenshot of the 'New Word' form in the Nuance Management Center. The form has three tabs: 'New Word' (selected), 'Speech Recognition', and 'Home'. Below the tabs is a blue header with the word 'Word'. The form contains three input fields: 'Written Form' with the text 'COVID-19', 'Spoken Form' with the text 'coevide nineteen', and 'Language' with a dropdown menu showing 'English (United States) [en-US]'. At the bottom of the form are three buttons: 'Save', 'Save & New', and 'Close'.

Important: If your organization has users using Dragon Medical in multiple languages you will need to follow these steps to add words to each specific language.
